

Simplicity, expansion flexibility, and a non-traditional church image were the chief design goals that were set in the design of this large church building.

Exterior View at Entrance

Phase I Classroom

Phase I Auditorium

The 1200-seat auditorium is designed for expansion and features a state-of-the-art acoustical design and sound system. The auditorium is bounded by a large skylit foyer and two-story classroom wing. Future phases may include an enlarged auditorium, a 200-seat chapel, and additional classrooms.
