

School Entrance

A central Learning Resource Library, a two-story classroom wing, multi-purpose gym / assembly space with stage, administrative offices and support, are features of this new 500-student elementary school.

The exterior is a blend of three colors of face brick and siding on the gable ends. The project contains 48,441 square feet of building area and a 3,000-square foot covered outdoor play area. This project's bid cost was within 0.75 of a percent of the estimate.
